

ESTABLISH THE PATH THAT LEADS TO LIBERATION THRU' UNDERSTANDING OF DELUSIONS

Desirous Attachment: Mental factor that observes its contaminated object, feels it to be attractive, exaggerates its attractions, considers it desirable, develops desire to possess it, and feels as if it has become absorbed into the object

Anger: Mental factor that observes an animate or inanimate object, feels it to be unattractive, exaggerates its bad qualities, considers it to be undesirable, becomes antagonistic, and develops the wish to harm the object

Deluded Pride: Mental factor that feels arrogant for slight reasons. With Pride, we cannot develop good qualities and realizations

Ignorance: A mental factor that is confused about the nature of an object, and that functions to induce wrong awareness, doubt and other delusions

Deluded Doubt: Is a two-pointedness of mind that interferes with the attainment of liberation or enlightenment (e.g., Doubts tending towards or away from Truth)

Deluded View: Is a view that functions to obstruct the attainment of liberation (View of SELF, extreme view, holding false views as supreme, Wrong moral disciplines and conduct as supreme and wrong view)

The Seed: Created in our mind by delusions we have developed in the past
The Object: This is the object we are observing when we develop a delusion
Distraction / influenced by others: Depend on whom our friends (spiritual) we associate with
Bad habits: Bad habits make our delusions stronger (e.g., telling lies, argument etc)
Familiarity: If we are familiar with delusions, they will arise naturally and spontaneously in mind
Inappropriate Attention: Focuses on qualities of a contaminated object and exaggerates them

Seed of Delusion + Object + Inappropriate Attention = Delusion to develop
(Perpetuate or enhance with Bad habits, Influence by others and Familiarity of Delusions)
